

## Reference Style

The following are some examples of our style.

The references should be numbered in alphabetical order according to family name.

Authors are responsible for the accuracy of the references.

Please cooperate in keeping our efficient editing and uniformity of style.

### 【Journal】

AUTHOR(s), Title of paper, Title of journal and **volume** (Year), Pages.

Ex.1: R. BAHLOUL, Global generic Bernstein-Sato polynomial on an irreducible affine scheme, Proc. Japan Acad., Ser. A. **79** (2003), 146-149.

Ex.2: Y. OKUYAMA, Linearization problem on structurally finite entire functions, to appear in Kodai Math. J.

Ex.3: K. SAKAMOTO AND Y. TAKEMURA, Curvature invariants of CR-manifolds, Kodai Math. J. **4** (1981), 251-265.

### 【Book】

AUTHOR(s), Title of paper, Title of book, Series title and **volume**, Publisher, Location, Year, Pages.

Ex.1: R. W. Easton, Locating invariant set, Global analysis(S-S. Chern and S. Smale, eds.), Proc. sympos. pure math. **14**, Amer. Math. Soc., Providence, RI, 1970, 55-59.

Ex.2: S. KOTZ, N. BALAKRISHNAN AND N. L. JOHNSON, Continuous multivariate distributions **1**, Models and applications, 2nd ed., John Wiley and Sons, New York, 2000.

Ex.3: T. ODA, A Castelnuovo bound for smooth surfaces, Surfaces seminar, Progress in mathematics **51**, World Scientific, Singapore, 1997, 298-314.
